Civil Engineering Week 2026 Narrative Report

I. Overview

Civil Engineering Week was held from March 9 to 13, 2026 with the theme "Building Resilient Communities". It included two seminars, a quiz bee for all year levels and a community clean-up drive.

II. Activities Conducted

Date	Activity	Participants	Outcome
Mar 9	Opening program and seminar on disaster-resilient housing	140	Speaker from the provincial engineering office
Mar 10	Seminar: Water supply systems for rural barangays	96	Case study of a Samar water project
Mar 11	Inter-year quiz bee	48	Third-year team won first place
Mar 13	Clean-up drive and closing	73	Drainage canals cleared along the campus road

III. Highlights

- Highest seminar turnout recorded by JPICE.
- Quiz bee questions were reused for the department's review bank.

IV. Challenges Encountered

- Rain moved the clean-up drive by one day.
- Liquidation receipts for snacks are still incomplete.

V. Recommendations

- Attach complete liquidation receipts before submission.
- Prepare an indoor alternative for outdoor activities.
