Activity Proposal: Calbayog Diversion Road Site Visit

Proponent	Junior Philippine Institute of Civil Engineers
Date	November 14, 2026, 7:00 AM to 12:00 NN
Venue	Calbayog City Diversion Road project site
Participants	45 third-year civil engineering students and 2 faculty chaperones
Academic year	2026-2027, First Semester

I. Rationale

Students in Highway and Railroad Engineering study pavement design and quality control from textbooks. A guided visit to an active road project shows how specifications, testing and inspection work on site, and how safety is managed around heavy equipment.

II. Objectives

- Observe subgrade preparation, base course placement and concrete paving.
- Learn the field tests used for quality control, such as slump and compaction tests.
- Understand site safety procedures and the role of the project engineer.

III. Program of Activities

Time	Activity	In charge
7:00 AM	Assembly at NwSSU and safety orientation	Engr. Ana Santos
7:45 AM	Travel to project site	Logistics committee
8:15 AM	Guided walk-through with the site engineer	Host contractor
10:30 AM	Open forum	Facilitator
11:30 AM	Return to campus	Logistics committee

IV. Budgetary Requirements

Item	Qty	Unit cost	Amount
Van rental (round trip)	3	PHP 2,500.00	PHP 7,500.00
Hard hats (borrowed, cleaning)	1	PHP 300.00	PHP 300.00
Snacks and water	47	PHP 60.00	PHP 2,820.00
Student accident insurance	47	PHP 25.00	PHP 1,175.00
Total			**PHP 11,795.00**

Source of funds: Participants' contribution and JPICE organizational fund

V. Expected Outcomes

- A short reflection paper from each participant.

- A photo documentation for the JPICE bulletin board.
